UNIVERSITY OF VICTORIA - CURRICULUM VITAE

Last Update: January, 2022

Name: Farouk S. Nathoo
Faculty: Science
Department: Mathematics and Statistics
Webpage: www.math.uvic.ca/~nathoo

1. EDUCATION and TRAINING

Degree	**Field**	**Institution**	**Date Obtained**
BSc	Combined Honors in Mathematics and Statistics	British Columbia	April 1998
MMath	Statistics	Waterloo	April 2000
Ph.D.	Statistics	Simon Fraser	February 2006

2. POSITIONS HELD PRIOR to APPOINTMENT at UVic

Position held	**Organization**	**Department**	**Period**
Research Assistant	Simon Fraser University	Statistics and Actuarial Science	September 2003 to December 2005
Statistical Consultant	Children's and Women's Health Centre of British Columbia	Clinical Research Support	September 2002 to August 2003
Actuarial Trainee	Hewitt Associates	Group Benefits	September 2000 to December 2000
Statistical Analyst	British Columbia Cancer Agency	Cancer Control Research	May 1999 to August 1999
Research Assistant	University of Waterloo	Statistics and Actuarial Science	January 1999 to April 1999
Research Assistant	University of British Columbia	Statistics	May 1998 to August 1998
Research Assistant	University of British Columbia	Statistics	May 1997 to August 1997

3. APPOINTMENTS at the UNIVERSITY of VICTORIA

Period	**Rank**	**Academic unit**
January 2006 to June 2011	Assistant Professor	Mathematics and Statistics
July 2011 to June 2020	Associate Professor	Mathematics and Statistics
July 2020 - to Present	Professor	Mathematics and Statistics
November 2013 to June 2023	Tier 2 Canada Research Chair in Biostatistics	Mathematics and Statistics
October 2020 to December 2020	Acting Associate Chair	Mathematics and Statistics

OTHER APPOINTMENTS

Period	**Rank**	**Academic unit**
September 2015 to August 2020	Adjunct Professor	Department of Statistics and Actuarial Science, Simon Fraser University
July 1 to December 31	Visiting Scientist (sabbatical)	Deeley Research Centre - BC Cancer

4. MAJOR FIELD(S) of SCHOLARLY or PROFESSIONAL INTEREST

Bayesian Methods; Statistical Computing; Spatial Statistics; High-Dimensional Data; Statistical Modelling; Neuroimaging Statistics

5. EDITORIAL APPOINTMENTS

- Guest Co-Editor, *Statistical Methods in Medical Research* – Special Issue entitled *Spatial Statistics for Neuroimaging*. Published in August 2013.
- Guest Co-Editor: Special Issue of *Entropy* on Big Data Analytics and Information Science for Business and Biomedical Applications, 2019 - 2021.
- Guest Co-Editor, *Canadian Journal of Statistics*, Special Issue on Neuroimaging Data Analysis, 2019 - 2021.
- Guest Co-Editor: Special Issue of *Entropy* on Big Data Analytics and Information Science for Business and Biomedical Applications, Volume II, 2021 - Present.
- Associate Editor, *Canadian Journal of Statistics*, 2016 – 2019; 2019 – 2022; 2022 – 2025.
- Topic Editor: *Entropy*, 2021 - 2023.

6. RESEARCH GRANTS and FELLOWSHIPS

a. Operating grants

Agency	**Title**	**Grant holders**	**Years**	**Amount awarded or requested**
University of Victoria	Start-up grant	Farouk S. Nathoo	2006	$30,000
NSERC	Discovery Grant	Farouk S. Nathoo	2006-2009	$12,000 per annum, 3 years
NSERC	Discovery Grant	Farouk S. Nathoo	2009-2014	$16,000 per annum, 5 years
GEOIDE	Strategic Investment Initiative	Bill Reed and Farouk S. Nathoo	2009-2012	$20,000 per annum, 3 years
NSERC	Tier 2 Canada Research Chair	Farouk S. Nathoo	2013-2018	$100,000 per annum, 5 years
NSERC	Tier 2 Canada Research Chair (Renewed)	Farouk S. Nathoo	2018-2023	$100,000 per annum, 5 years
NSERC	Discovery Grant	Farouk S. Nathoo	2014 - 2019	$14,000 per annum, 5 years
NSERC	Engage Grant	Farouk S. Nathoo	2015	$20,000
NSERC	Engage Grant	Farouk S. Nathoo	2015	$25,000
CANSSI	Collaborative Research Team (CRT)	Farouk S. Nathoo and Linglong Kong (CRT co-leaders)	2016-2019	$180,000
Island Health	Seed Grant	Co-PI: Christine Lee and Kennard Tan; Co-Investigators: Farouk Nathoo and Peter Kim	2016	$5,000
Island Health	Collaborative Grant	Co-PI: Christine Lee and Farouk Nathoo; five Co-Investigators	2016	$15,000
University of Victoria	Internal Research Grant	Farouk Nathoo	2017	$7,000
IDRC and NRF	South Africa - Canada Research Chairs Mobility Initiative	Farouk Nathoo and Andries Engelbrecht	2017 - 2019	$40,000 (CRC share is 50%)
CANSSI	Health Sciences Collaborating Centre	PI: Mary Lesperance; Co-Investigators: Farouk Nathoo and two others	2017-2020	$10,000
MITACS	Accelerate (project with BPI INC.)	Farouk S. Nathoo (Internship for PhD	2018	$30,000

		Student Yin Song)		
MITACS	Accelerate (project with FIND Innovation Labs)	Farouk S. Nathoo (Internship for PhD Student Shan Shi; External Project PI is Sandy Rutherford)	2019	$17,500
NSERC	Discovery Grant	Farouk S. Nathoo	2020 - 2025	$31,000 per annum, 5 years

b. Infrastructure grants

Agency	**Equipment**	**Grant holders**	**Start**	**Amount awarded or requested**
NSERC	Computing Cluster	With Julie Zhou and seven others	2007	$80,900
NSERC	Computing Equipment	With Mary Lesperance and seven others	2009	$71,100

c. Workshop grants

Agency	**Title**	**Grant holders**	**Start**	**Amount awarded or requested**
CANSSI	Workshop grant HDDA-VI	Ejaz Ahmed and Farouk S. Nathoo	2016	$10,000
NSF	Workshop grant (UVic Applied Topology and High-Dimensional Data Workshop)	Ryan Budney, S. Ejaz Ahmed, Farouk S. Nathoo	2015	$10,000
PIMS	Workshop grant (GEOMED 2011)	Farouk S. Nathoo and C.B. Dean	2011	$15,000
MITACS	Workshop grant (GEOMED 2011)	Farouk S. Nathoo and C.B. Dean	2011	$10,000

GEOIDE	Workshop grant (GEOMED 2011)	Farouk S. Nathoo and C.B. Dean	2011	$4,050

c. Honours, fellowships, and scholarships

Date	**Details**
2018	Tier 2 Canada Research Chair in Biostatistics Renewal (2018-2023; total value of 500K)
2013	Tier 2 Canada Research Chair in Biostatistics (2013-2018; total value of 500K)
2015	Graduate Student Advisee Honor: Co-advisor (with M. Lesperance) for 2015 Statistical Society of Canada Student Conference CANSSI-sponsored Best Paper Award Winner Keelin Greenlaw. This award was based on Greenlaw's MSc research.
2012	Graduate Student Advisee Honor: Advisor for Statistical Society of Canada Student Research Presentation Award Winner, Salimah Ismail. This award was based on Ismail's MSc research where I was sole supervisor.
2008	Graduate Student Advisee Honor: Advisor for International Environmetrics Society Best Poster Award Winner, Yolanda Li. This award was based on Li's MSc research where I was sole supervisor.
2004 to 2005	GEOIDE PhD Research Scholarship
2002 to 2004	Simon Fraser University Graduate Fellowship
2000	Ontario Graduate Scholarship
1999	University of Waterloo, Outstanding Academic Performance Award. Awarded for the highest standing obtained during the first year of the Statistics Masters program.
1999	University of Waterloo, Mathematics Faculty Graduate Scholarship
1998	University of Waterloo, Graduate Entrance Scholarship
1998	University of British Columbia, Nash Medal in Statistics. Awarded upon graduation for the highest standing obtained in the undergraduate Statistics program.

6. PUBLICATIONS and PRESENTATIONS

a. Articles published in refereed journals (list all articles published, accepted for publication, in press, or submitted; include reviews). My HQP are indicated with '*'; other HQP are not indicated.

Publications

49. Rocha*, L., Wei*, Z., Yang*, A., Miranda, M., Nathoo, F.S. A review of Bayesian hypothesis testing and its practical implementation. Under revision for ***Entropy***.

48. Wei*, Z., Nathoo, F.S., Masson, M.E.J. Investigating the Relationship Between the Bayes Factor and the Separation of Credible Intervals. Submitted for Publication. R package *rmBayes* available on CRAN.

47. Ge, S., Wang, S., Nathoo, F.S., Wang, L. Online Bayesian Learning for Mixtures of Spatial Spline Regressions with Mixed-Effects. ***Journal of Statistical Computation and Simulation***, *https://doi.org/10.1080/00949655.2021.2002329*.

46. Bourbonnais, Mathieu; Nelson, Trisalyn; Stenhouse, Gord; Coops, Nicholas; Nathoo, Farouk; Darimont, Chris. A longitudinal approach for identifying scale-dependent change in habitat selection. Under revision for ***Ecosphere***.

45. Eugene A. Opoku*, Farouk Nathoo, S. Ahmed. Sparse Estimation Strategies in Linear Mixed Effect Models for High-dimensional Data Application (2021) ***Entropy***, DOI: 10.3390/e23101348.

44. Nathoo, F.S. Bayesian Methods for Imaging Genetics. (2021) ***Journal of Brain, Behaviour and Cognitive Sciences***, 4(4),1.

43. Nathoo, F.S., Kong, L., Yi, G.Y. (2021) Special Issue on Neuroimaging data analysis: Guest Editors' Introduction. ***Canadian Journal of Statistics***, https://doi.org/10.1002/cjs.11613.

42. Eugene A. Opoku*, S. Ahmed, Yin Song*, Farouk Nathoo. (2021). Ant Colony System Optimization for Spatiotemporal Modelling of Combined EEG and MEG Data. ***Entropy***, 23(3), 329. *This paper was highlighted on the main page of Entropy as a title story.*

41. *Song, Y., Ge, S., Cao, J., Wang, L., Nathoo, F.S. (2021). A Bayesian Spatial Model for Imaging Genetics. ***Biometrics***. ;1–12. https://doi.org/10.1111/biom.13460 . An R package 'bgsmtr' implementing the methods from this paper is available on CRAN here.

40. Yunlong Nie, *Eugene Opoku, *Laila Yasmin, *Yin Song, John Wang, Sidi Wu, Vanessa Scarapicchia, Jodie Gawryluk, Liangliang Wang, Jiguo Cao, Farouk S. Nathoo. (2020). Spectral Dynamic Causal Modelling of Resting-State fMRI: Relating Effective Brain Connectivity in the Default Mode Network to Genetics. ***Statistical Applications in Genetics and Molecular Biology***, DOI: https://doi.org/10.1515/sagmb-2019-0058.

c. Presentations at conferences or institutions

2021

1. Invited Talk, University of Victoria, Bioinformatics Reading Group
2. Seminar, University of Texas, School of Public Health, February, 2021
3. Seminar, Western University, March, 2021
4. Invited Lecture for Third Grade Students, 'Gumballs: An Introduction to Probability, Prediction and Sampling', Frank Hobbs Elementary School, November, 2021

2020

1. Keynote talk, Precision Health + Data Science Showcase, University of Victoria

March, 2020.
2. Invited talk, Joint Statistical Meetings - Virtual Conference, August 2020.
3. Invited talk, Queens University, Department of Mathematics and Statistics Colloquium -Virtual Presentation, October 2020.
4. Invited talk, Virtual Presentation CMStatistics 2020, December 2020.

2019

5. Invited talk, University of Victoria Cognition and Brain Science Seminar, January, 2019.
6. Invited talk, Matrix Institute Seminar Series, University of Victoria, January 2019.
7. Invited talk, BIRS Workshop on Statistical Analysis of Large Administrative Health Databases: Emerging Challenges and Strategies, February 2019.
8. Invited talk, SSC 2019 Meeting, Calgary, Alberta, May, 2019.
9. Invited Discussant, Invited Session 'Making an Impact in Neuroscience: Advances in Statistical Methods for Brain Imaging', Joint Statistical Meetings, Denver Colorado, July, 2019.
10. Invited talk, ICSA-China, in Nainkai University, China, July, 2019.
11. Invited talk, CMStatistics, London, UK, December, 2019.

2018

1. Invited talk, SSC 2018 Meeting, Montreal, Quebec, June 2018.
2. Invited talk, WNAR 2018, Edmonton, Alberta, June 2018.
3. Invited talk, Joint Statistical Meetings, Vancouver, B.C., August 2018.
4. Invited talk, CANSSI Grand Opening Event, Simon Fraser University, December 2018.
5. Nathoo, F. S., Kilshaw, R. E., & Masson, M. E. J. (2018, November). *A Bayesian alternative to within-subject confidence intervals*. Annual meeting of the Psychonomic Society, New Orleans, LA.
6. Invited talk, 4th International Conference on Big Data and Information Analytics, Houston, TX, confirmed for December 2018.

2017

1. Invited talk, CANSSI Workshop on Medical Physics and Statistics, Fields Institute, Toronto, April 2017.
2. Invited talk, SSC 2017 Meeting, Manitoba, Winnipeg, June 2017.
3. Two Invited talks, Les Sixiemes Recontres R, Anglet, France, June 2017.
4. Invited talk, 61st World Statistics Congress, ISI, Marrakech, Morocco, confirmed for July 2017 (presentation subsequently cancelled due to a time conflict with a family event).

5. Invited talk, Joint Statistical Meetings, Baltimore Maryland, August 2017.
6. Invited talk, Brain and Mind Institute, Western University, November 2017.
7. Invited talk, Department of Statistical Science, University of Toronto, November 2017.
8. Invited talk, 'Introduction to Data Science', UVic *Let's Talk Science* program for high-school students, November 2017.

2016

1. Invited talk, BIRS Workshop on Mathematical and Statistical Challenges in Neuroimaging Data Analysis, Banff, Alberta, confirmed for February 2016.
2. Invited talk, ENAR 2016 Spring Meeting, Austin, Texas, March 2016.
3. Invited talk, ISBA 2016 World Meeting, Sardinia, Italy, June 2016.
4. Contributed talk, Workshop on Pattern Recognition and Neuroimaging, Trento, Italy, June 2016.
5. Invited talk, SSC 2016 Meeting, St. Catharines ON, June 2016.
6. Two Invited talks, International Biometric Conference (IBC), Victoria BC, July 2016.
7. Invited talk, Department of Statistics and Actuarial Science, SFU, October 2016.
8. Invited talk, Department of Statistics, UBC, November 2016.
9. Invited talk, Department of Biostatistics, University of Michigan, November 2016.
10. Invited Reading Group Presentation, Department of Biostatistics, University of Michigan, November 2016.
11. Invited talk, Department of Psychology Cognition and Brain Science Seminar, UVic, November 2016.

2015

1. Invited talk, Fields Institute Workshop on complex spatiotemporal data structures: methods and applications, April 2015.
2. Invited talk, Workshop on Imaging, Department of Biostatistics, University of Michigan, May 2015.
3. Invited talk, 2015 Statistical Society of Canada Annual Meeting, Halifax, June.
4. Invited talk, 2015 Society for Applied Research in Memory and Cognition (symposium on Bayesian Data Analysis in Applied Cognitive Contexts), Victoria BC, June 2015.
5. Invited talk, 2015 Joint Statistical Meetings, Seattle, August 2015.
6. Invited talk, PIMS Workshop on Applied Topology and High-Dimensional Data Analysis, Victoria BC, August 2015.

2014

1. Invited Talk, 2014 Statistical Society of Canada Meeting, invited session entitled 'New Methods for Analyzing Brain Imaging Data'.
2. Invited Talk, The 3rd Institute of Mathematical Statistics, Asia Pacific Rim Meeting, topic contributed session entitled 'Statistical Challenges in Big Imaging Data Analysis', July 2014.
3. Invited Talk, Banff International Research Station (BIRS) workshop Perspectives on High-Dimensional Data Analysis IV, August, 2014.
4. Invited talk, Department of Mathematics and Statistics, University of Alberta, November, 2014.
5. Invited talk, Department of Statistics and Actuarial Science, SFU, November, 2014.

2013

1. Invited Talk, Joint Statistical Meetings, Topic contributed session entitled 'Advances in Statistics for Brain Imaging'.
2. Invited Talk, 3rd International Workshop on Perspectives on High-dimensional Data Analysis.
3. Invited Poster Presentation, Banff International Research Station (BIRS) workshop on 'Non-Gaussian Multivariate Statistical Models and their Applications'.

2012

1. Invited Talk, Department of Statistics and Actuarial Science, SFU.
2. Invited Talk, Department of Mathematics and Statistics, UVic.
3. Invited Talk, MITACS Workshop on Mathematics of Brain Imaging, IRMACS, SFU.
4. Invited Talk, The 2nd Institute of Mathematical Statistics Asia Pacific Rim Meeting, Tsukuba, Japan.
5. Invited Talk, ENAR 2012 Spring Meeting, Biometric Society, Eastern North American Region, Washington, DC, USA.
6. Invited Talk, Department of Statistics, UBC.

2011

1. Invited Talk, 7TH GEOMED meeting on Spatial Statistics and Geomedical Systems, Victoria, British Columbia.
2. Contributed Poster (with S. Ismail), 7TH GEOMED meeting on Spatial Statistics and Geomedical Systems, Victoria, British Columbia.
3. Contributed Poster (with A. Argyle), 7TH GEOMED meeting on Spatial Statistics and Geomedical Systems, Victoria, British Columbia.

4. Invited Talk, Conference on statistical modelling of environmental and health data, University of New Brunswick, Fredericton, New Brunswick.

2010

1. Contributed Talk, Joint Statistical Meetings, Vancouver, British Columbia.
2. Invited Talk, Statistical Society of Canada annual meeting, Québec City, Québec.

2009

1. Invited Talk, ICSA Applied Statistics Symposium, San Francisco, California.
2. Invited Panel Discussant: Workshop on Modelling Indirectly of Imprecisely Observed Data, University of Western Ontario.
3. Invited Talk, Workshop on Modelling Indirectly of Imprecisely Observed Data, University of Western Ontario.
4. Invited Talk, GEOMED Conference on Geomedical Systems, Charleston, South Carolina.
5. Invited Talk, Department of Statistics, University of British Columbia.
6. Invited Panel Discussant: Workshop on Emerging Issues in the Analysis of Longitudinal Data, Banff International Research Station (BIRS), Banff, Alberta.
7. Contributed Talk, IMS Annual Meeting of New Researchers in Probability and Statistics, Johns Hopkins University, Baltimore, Maryland.
8. Invited Talk, Department of Mathematics and Statistics, McMaster University.

2008

1. Contributed Talk, International Workshop on Spatio-Temporal Modeling (METMA4), Sardinia, Italy.
2. Contributed Talk, Joint Statistical Meetings, Denver, Colorado.
3. Contributed Poster (with Y. Li and Steve Taylor), TIES annual meeting, Kelowna, British Columbia. **Winner of the Best Poster Award**.
4. Invited Talk, TIES annual meeting, Kelowna, British Columbia.

2007

1. Invited Talk, Statistical Society of Canada annual meeting, St. John's, Newfoundland.
2. Invited Talk, International Indian Statistical Association, Cochin, India.
3. Invited Talk, Pacific Forestry Centre, Victoria, British Columbia.

2006

1. Invited Talk, Statistical Society of Canada annual meeting, London, Ontario.
2. Invited Talk, BIRS workshop on forests, fires and stochastic modelling, Banff International Research Station.

2005

1. Invited Talk, WNAR/IMS annual meeting, Fairbanks, Alaska.
2. Contributed Talk, Statistical Society of Canada annual meeting, Saskatoon, Saskatchewan.
3. Invited Talk, NPCDS workshop on forest fires and point processes, The Fields Institute, University of Toronto.
4. Invited Talk, Centre for Health and Environment Research, University of British Columbia.
5. Invited Talk, Department of Mathematics and Statistics, University of Victoria.
6. Invited Talk (with C.B. Dean), Joint UBC/SFU statistics seminar, Simon Fraser University.
7. Contributed Poster, GEOIDE annual conference, Québec City, Québec.

2004

1. Contributed Poster, GEOIDE annual conference, Gatineau, Québec.
2. Invited Talk (with T. Niyonsenga), Strategic workshop on geomatics and public health, GEOIDE annual conference, Gatineau, Québec.

7. SERVICE and PROFESSIONAL ACTIVITIES

- Member of the Board of Directors of the Canadian Statistical Sciences Institute, 2018 - 2021. Member of the Executive Committee of the Canadian Statistical Sciences Institute, 2019-2020. Second term on the Board of Directors 2021 - 2024.
- Grant Selection Panel: Committee Member of NSERC Mathematics and Statistics Evaluation Group (EG 1508), 2016-2019.
- External Reviewer for a Tenure and Promotion Case at Simon Fraser University, Department of Statistics and Actuarial Science, 2018.
- External Reviewer for a Tenure Case at The University of Texas Health Science Center at Houston (UTHealth) School of Public Health, 2019.
- Member of the Pierre Robillard Award Committee, Statistical Society of Canada,

2020-2023.
- External Reviewer for a Promotion to Full Professor case at HEC Montreal, 2021.

a. University and Faculty Service

- Chair Search Committee, Department of Mathematics and Statistics, Faculty of Science 2019
- Faculty mentor for a new assistant professor hired in Mathematics and Statistics, 2019
- Appointments and Reappointments Committee, Department of Mathematics and Statistics, Faculty of Science 2018-2019
- Poster Judge, Faculty of Science Honoursfest, 2019
- Mathematics and Statistics representative on the Faculty of Science Committee for Curriculum/ Academic Standards, 2013-2015
- Poster Judge, Faculty of Science Honoursfest, 2013
- Chair of M.A. examination committee, The Faculty of Human and Social Development, 2008
- Chair of MASc examination committee, The Department of Mechanical Engineering, 2011
- Chair of M.A. examination committee, Department of Germanic and Italian Studies, 2020
- Chair of PhD examination committee, Department of Electrical Engineering, 2021

b. Departmental committees and responsibilities

- Math Biology Competition Selection Committee, 2006

- Committee to review and revise the departmental 10-year-plan, 2007

- Departmental Computing Cluster, 2007: I participated in establishing the Euler cluster, a high performance computing cluster that is used for computationally intensive research within the department.

- Department Safety Coordinator (jointly with two Staff members), 2008, 2009, 2010, 2011, 2012

- **Department Space Committee**, July 2020 to present

- Graduate Student Guidelines Document: With three other members of the Statistics Group, we have drafted a document entitled "The Statistics Graduate Program – Guidelines for New Students" which will be given to all new graduate

students in Statistics, starting September 2010.

- **Replacement for MSc thesis defence**, 2010: Served as a stand-in (for Professor William Reed) during the MSc thesis defence for Stanley Wong.

- **Departmental Review Document, 2010/2011**: Served on a team of three faculty members that was responsible for writing the section of the Departmental Review Document covering our Graduate Programs.

- **Statistics Transfer Credit**: June 2006 to December 2006; June 2008 to August 2008; March 2010 to June 2012, 2017

- **Ph.D. Comprehensive Exam (Applied Statistics)**, 2008, 2011, 2014, 2021.

- **Ph.D. Comprehensive Exam (Statistical Theory),** 2015, 2017, 2020, 2021.

- **Department Committee for Promotion and Tenure**, July 2011 – June 2012

- **Department Curriculum Committee,** Jan 2012 to June 2012

- **Chair of the Department Curriculum Committee,** July 2013 to June 2015

- **Organizer and Chair of the Statistics Seminar Series**, 2007, 2008, 2009, 2010, 2013, 2014 (inactive in Fall 2014), 2017, 2019, 2020, 2022

- **Member of Department Graduate Committee (for statistics)**, July 2015 – June 2016, July 2020 to present (exclusive of 6 month study leave in 2021)

- **Member of Ad Hoc Hiring Plan Committee** charged with updating the department hiring plan, 2019

- **Member of the Department Standard Committee** charged with putting together department standards document for teaching, research and service, 2020

c. Membership and service on international, national and provincial professional bodies and societies

- Member of The Statistical Society of Canada

d. Conference organisation (indicate position in organisation)

- **2021 Scientific Program Committee:** 2021 CMStatistics Conference (I also organized an invited session on imaging statistics)

- **2020 Steering Committee:** The Tenth International Conference and Workshop on High Dimensional Data Analysis (ICW-HDDA-X).

- **2020 CMStatistics Conference:** Organizer for an invited session Recent developments in imaging data analysis.

- **2019 CMStatistics Conference:** Organizer for an invited session in imaging genetics.

- **2019 Joint Statistical Meetings:** Organizer and Discussant for an invited session 'Making an Impact in Neuroscience: Advances in Statistical Methods for Brain Imaging'.

- **2019 Statistical Society of Canada Annual Meeting:** Organizer of an invited session 'A Showcase of Student Research from the CANSSI CRT: Joint Analysis of Neuroimaging Data: High-Dimensional Problems, Spatiotemporal Models and Computation.

- **2017 Statistical Society of Canada Annual Meeting:** Co-organizer (with Kong) of an invited session on neuroimaging data analysis showcasing work from our CANSSI Collaborative Research Team.

- **2017 The 7th International Workshop on the Perspectives on High-Dimensional Data Analysis:** Member of the organizing committee (5-day workshop at CMAT, Guanajuato, Mexico).

- **2017 Annual Meeting of the Organization for Human Brain Mapping (OHBM):** Member of the local organizing committee.

- **2017 Statistical Society of Canada Annual Meeting:** Co-organizer of an invited session on neuroimaging data analysis.

- **2016 The 6th International Workshop on the Perspectives on High-Dimensional Data Analysis:** Member of organizing committee (3-day workshop at the Fields Institute, May 25-27).

- **2016 BIRS Workshop on Mathematical and Statistical Challenges in Neuroimaging Data Analysis:** Member of organizing committee (5-day workshop Jan. 31 – Feb. 6).

- **2016 Statistical Society of Canada Annual Meeting:** Co-organizer of an invited session titled: 'Imaging Genomics – A New Frontier for Statistical Methodology'.

- **2015 UVic Workshop on Applied Topology and High-Dimensional Data Analysis:** Program Co-Chair (with S. Ejaz Ahmed and Ryan Budney)

- **2015 Workshop on Imaging, Department of Biostatistics, University of Michigan:** Organizer of an invited session titled 'High-Dimensional Data Analysis for Neuroimaging'.

- **2015 Statistical Society of Canada Annual Meeting:** Organizer of an invited session titled: 'Big Data and Neuroimaging'.

- **2013 International Workshop on Perspectives on High-dimensional Data Analysis:** Member of the local organizing committee.

- **2013 Joint Statistical Meetings:** Co-organizer of a topic-contributed session entitled 'Advances in Statistics for Brain Imaging'.

- **2013 Statistical Society of Canada Annual Meeting:** Organizer of an invited session entitled 'High Dimensional Data Analysis for Brain Imaging'.

- **GEOMED 2011, Victoria, BC:** Program Co-Chair.

e. Grant proposals reviewed (include site visits)

- Project Reviewer for CIHR Project Grant Competition, Fall 2016 (I was invited but eventually assigned no grants to review).
- Grant Selection Panel: CIHR Catalyst Grant, Peer Review Committee Member, 2013
- Reviewer for the NSERC Discovery Grant Program, 2007, 2008, 2010, 2012, 2013, 2015
- Reviewer for the Canadian Foundation for Innovation (CFI) 2009
- Reviewer for McGill Healthy Brains for Healthy Lives (HBHL) Innovative Ideas program, 2019
- Reviewer for 2019 New Frontiers in Research (NFRF) Exploration competition.

- Reviewer for 2020 CANSSI Collaborative Research Team Letter of Intent
- Reviewer for the Western Research Chair Program (Western University), 2020
- Reviewer for Canada Research Chairs program, 2017, 2021
- Reviewer for Mitacs Accelerate Program, 2021

f. Reviews for journals, book reviews, published commentaries

- Referee for *Journal of the American Statistical Association*, 2013, 2015, 2017, 2018, 2021
- Referee for *American Journal of Biostatistics*, 2015
- Referee for *Biometrics*, 2006, 2011, 2013, 2014, 2015, 2016, 2017, 2018, 2020, 2021 (two papers)
- Referee for *Behavior Research Methods*, 2020, 2021
- Referee for *Bioinformatics*, 2018 (two papers), 2020
- Referee for *Brain and Behavior*, 2015
- Referee for *Chaos, Solitons and Fractals*, 2018
- Referee for *Computational Statistics and Data Analysis*, 2018
- Referee for *Communications in Statistics – Theory and Methods*, 2019
- Referee for *Statistics in Medicine*, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2018, 2019, 2020
- Referee for *Ecology*, 2015
- Referee for *Educational and Psychological Measurement*, 2015
- Referee for *Environmental and Ecological Statistics*, 2013
- Referee for *Environmetrics*, 2011, 2012
- Referee for *Econometrics and Statistics*, 2018
- Referee for *Entropy*, 2020
- Referee for the *Canadian Journal of Statistics,* 2006, 2008, 2011, 2017, 2021(three papers)
- Referee for *Statistical Methods in Medical Research*, 2012
- Referee for *Epidemiology*, 2009
- Referee for *the Journal of the Royal Statistical Society Series C*, 2010
- Referee for *Computational Statistics and Data Analysis*, 2010, 2012
- Referee for *Theoretical Population Biology*, 2011
- Referee for *Geographical Analysis*, 2014
- Referee for *Genetic Epidemiology*, 2021
- Referee for *Journal of Probability and Statistics*, 2011
- Referee for *Journal of Agricultural, Biological, and Environmental Statistics*, 2012
- Referee for *Journal of Quantitative Analysis in Sports*, 2016
- Referee for *Human Brain Mapping*, 2016, 2018
- Referee for *Journal of Selected Topics in Signal Processing*, 2016
- Referee for *Inverse Problems in Science and Engineering*, 2016

- Referee for *Scientific Reports*, 2021
- Referee for *Statistics in Biosciences, 2017*
- Referee for *Statistics and Its Interface*, 2020
- Referee for *Neuroimage*, 2018 (two papers), 2020

UNIVERSITY OF VICTORIA - TEACHING DOSSIER

Last Update: June, 2022

Name: Farouk S. Nathoo
Faculty: Science
Department: Mathematics and Statistics

STUDENT SUPERVISION (**students I have directly supervised or co-supervised; all students are under sole supervision unless explicitly noted otherwise)**

Undergraduate:

Name	Research Topic	Year Completed (First or last known position)
Robyn Bates *(Co-supervised with Bill Reed)*	An exploration of Bayesian methods for the generalized normal-Laplace distribution	2006 (PhD student, University of Utah, Salt Lake City)
Philip Rempel	Exploring model misspecification and robustness in joint models for longitudinal and survival data.	2007 (Graduate Student, McGill University)
Eric Cormier	Exploring Markov models for longitudinal binary data	2009 (Assistant Teaching Professor, Mathematics and Statistics, UVic)
Elena Szefer	Statistical Approaches for Combining Group Analysis and Registration of MR Images	2012 (Biostatistician, The EMMES Corporation)
Robin Spilette (*Co-supervised with Naznin-Virji Babul*)	Graph Theoretic Analysis of EEG Data	2014 (Law Student, University of Toronto)

Robyn Kilshaw (*Co-supervised with Mike Masson*)	Bayesian Within-Subject Credible Intervals for Repeated Measures Designs	2018 (PhD student, University of Utah, Salt Lake City)
Cole Sibbald, Co-supervised with Nishant Mehta	Differential Privacy Techniques in Stacked Generalization	2020

<u>Graduate MSc:</u>

Name	**Research Topic**	**Year Completed**
Hong Li	Spatio-temporal modeling of fire frequency and severity from panel data.	2008 (Statistician, Health Canada)
AijunYang	Modeling survival after myocardial infarction using accelerated failure time models and space-varying regression.	2009 (Statistician, Health Canada)
Parminder Sarohia	A study of desperation in sport.	2010 (Actuarial Position, Mercer, Vancouver)
Salimah Ismail	Mixed model and space-varying regression analysis of MEG brain signals.	2012 (TV Production Masters Candidate, Boston University, College of Communication)
Susan Kinniburgh	Spatial and Network models for the spread of raccoon rabies.	2012 (Regular Faculty Member, Mathematics and

		Statistics, Camosun College)
Veronica Sabelnykova (*Co-supervised with M. Lesperance*)	Bayesian Methods for Joint Modeling of Survival and Longitudinal Data: Applications and Computing	2012 (Statistician, Ontario Institute for Cancer Research)
Priya Grewal	Spatial smoothing and ecological regression analysis of low birth weight in British Columbia.	2012 (unknown)
Keelin Greenlaw (*Co-supervised with Mary Lesperance*)	Bayesian methods for imaging genomics.	2015 (Statistician, Lady Davis Institute for Medical Research, Montreal)
Nicole Croteau	Persistent homology for MEG/EEG classification with application to brain decoding.	2015 (Statistical Consultant, UVic Statistical Consulting Centre)
Nancy Guo	Spatial Analysis of the Tumor Microenvirnment	2021
Zhengxiao Wei	Bayesian Within-Subject Inference for Repeated Measures Designs	In Progress
Ziyi Lyu	TBD	In Progress
Fabiha Binte Farooq	External student from Economics working as an RA on a cancer imaging study (I am not the formal supervisor for her degree in economics)	2021

Graduate PhD:

Name	Research Topic	Year Completed
Angus Argyle	Species Richness Estimation	2012 (Statistician, Statistics Canada, Ottawa)
Ming Teng (*University of Michigan, co-supervised with Tim Johnson*)	Bayesian Computation for Spatial Data and Neuroimaging Data	2017 (Statistician, Morgan Stanley, New York)
Yin Song	Methods for Neuroimaging Data Analysis and Cognitive Science	2019 (Data Scientist, Tutela, Vancouver)
Eugene Opoku (*Co-supervised with Ejaz Ahmed*)	Methods for Neuroimaging Data and High-Dimensional Data	2021
Shan Shi	Deep Learning with applications to Brain Decoding and Imaging Genetics	In Progress (On Leave of Absence)
Aijun Yang (*Co-supervised with Julian Lum*)	Methods for Spatial Transcriptomics and Cancer Research	In Progress
Leno Recho (*Co-supervised with Michelle Miranda*)	Neural Network Feature Construction for Imaging Genetics	In Progress (On leave of absence)

Postdoctoral Fellow:

Name	Research Topic	Year Completed
Li Xing	Regression for Longitudinal Analysis in Imaging Genetics with Bayesian Shrinkage Priors	2019 (Assistant Professor, Mathematics and Statistics, University of Saskatchewan)
Cedric Beulac	Neural Networks and Imaging Genetics	2021, CANSSI Distinguished Postdoctoral Fellowship

Membership on graduate student supervisory committees

Student	Degree	Type of Contribution	Year Degree Awarded
Fan Wu	MSc – Statistics	Supervisory Committee	2008
Karen Li	MSc – Statistics	Supervisory Committee	2009
Tracy Chen	MSc – Statistics	Supervisory Committee	2009
Ryan Stone	MSc – Statistics	Supervisory Committee	2013
Emily Malcom	MSc - Statistics	Supervisory Committee	2014
Simon Odense	MSc - Mathematics	Supervisory Committee	2015
Yan Xu	MSc - Statistics	Supervisory Committee	2017
Colin Robertson	PhD – Geography	Supervisory Committee	2011
Jed Long	PhD – Geography	Supervisory Committee	2013
Amanmeet Garg	PhD – Biomedical Engineering (SFU)	Supervisory Committee	2017
Victor Huang	PhD - Economics	Supervisory	2016

		Committee	
Akina Umemoto	PhD - Neuroscience	Supervisory Committee	2016
Mathieu Bourbonnais	PhD – Geography	Supervisory Committee	2018
Cory Shankman	PhD – Physics and Astronomy	Supervisory Committee	2017
Yue Yin	PhD – Statistics	Supervisory Committee	2017
Fan Wu	PhD – Statistics	Supervisory Committee	2015
Kaitlan Fallow	PhD - Psychology	Supervisory Committee	2021
Eric Mah	MA - Psychology	Supervisory Committee	In Progress
Yassaman Shahhosseini,	PhD - Statistics	Supervisory Committee	In Progress
Hamza Iseric	MSc – Computer Science	Supervisory Committee	2021

d. External Examiner on graduate examination committees

Student	Degree	Type of Contribution	Year Degree Awarded
Colin Robertson	MSc - Geography	External Examiner	2007
Christy Lightowlers	MSc – Geography	External Examiner	2007
Khalif Halani	MSc – Statistics (SFU)	External Examiner	2016
Matthew Joyce	MA - Economics	External Examiner	2017
Maximilian Rabe	MSc - Psychology	External Examiner	2018
Jeffrey Daniel	PhD - Statistics (Guelph)	External Examiner	2019
Lahiru Wickramasingh	PhD - Statistics (University of Manitoba)	External Examiner	2021

TEACHING EXPERIENCE

a. Undergraduate and Graduate Courses Taught

Year	Course	Code	Hours/Week	Term	# of Students
2006	Int. to Prob. Stat. I	Stat 260	3	Spring	69
2006	Time Series	Stat 457/554	3	Spring	9
2006	Int. to Prob. Stat. I	Stat 260	3	Fall	81
2007	Int. to Prob. Stat. I	Stat 260	3	Spring	87
2007	Spatial Statistics	Stat 454/556	3	Spring	4
2007	Bayesian Statistics	Stat 454/556	3	Fall	11
2007	Int. to Prob. Stat. I	Stat 260	3	Fall	87
2008	Int. to Prob. Stat. I	Stat 260	3	Spring	90
2008	Statistical Computing	Stat 454/556	3	Spring	7
2008	Int. to Prob. Stat. I	Stat 260	3	Fall	66
2008	Bayesian Statistics	Stat 454/556	3	Fall	6
2009	Int. to Prob. Stat. I	Stat 260	3	Fall	83
2009	Generalized Linear Models	Stat 458/568	3	Fall	4
2010	Spatial Statistics	Stat 454/556	3	Spring	3
2010	Data Analysis	Stat 359/563	3	Spring	14
2010	Bayesian Statistics	Stat 454/556	3	Fall	11
2010	Mathematical Statistics I	Stat 350	3	Fall	20
2011	Data Analysis	Stat 359/563	3	Spring	19
2011	Int. to Prob.	Stat 260	3	Spring	74

	Stat. I				
2011	Generalized Linear Models	Stat 458/568	3	Fall	9
2012	Statistics for Business	Stat 252	3	Spring	80
2012	Data Analysis	Stat 359/563	3	Spring	15
2013	Bayesian Statistics	Stat 454/556	3	Spring	10
2013	Data Analysis	Stat 359/563	3	Spring	20
2013	Time Series	Stat 457/554	3	Fall	25
2014	Data Analysis	Stat 359/563	3	Spring	20
2014	Bayesian Theory	Stat 556	3	Spring	4
2015	Data Analysis	Stat 359/563	3	Spring	24
2015	Bayesian Statistics	Stat 454/556	3	Spring	9
2015	Data Analysis	Stat 359/563	3	Fall	24
2015	Time Series	Stat 457/554	3	Fall	15
2017	Int. to Prob. Stat. I	Stat 260	3	Spring	116
2018	Stochastic Processes	Math 452/ Stat 552	3	Fall	23
2018	Bayesian Statistics	Stat 460/560	3	Fall	11

b. Directed Studies

Year	Course	Code	Hours/Week	Term	Student
2010	Bayesian Statistics	Biol 550B	3	Spring	Katleen Roberts (Biology)
2014	Bayesian	Stat	NA	Spring	Several

	Theory	454/556			students in Math and Statistics
2020	Directed Studies with emphasis on Stacking	Stat 498	NA	Summer	Cole Sibbald

SUMMARY of STUDENT EVALUATIONS of TEACHING

a. Evaluations 2006 to 2008 Spring

		Scores (means) based on a 5-point scale:							
Course	Year	1	2	3	4	5	6	7	N
STAT 260	2006 Spring	4.17	3.10	3.53	4.10	3.66	3.77	2.80	30
STAT 260	2006 Fall	4.10	2.98	3.76	3.95	3.48	3.51	2.79	42
STAT 260	2007 Spring	4.37	3.71	3.92	4.32	4.14	4.00	3.45	38
STAT 260	2007 Fall	4.32	3.44	3.93	4.07	3.76	4.09	3.18	56
STAT 260	2008 Spring	3.69	2.76	3.00	3.46	3.39	3.50	2.62	41
STAT 457/554 Time Series	2006 Spring	4.17	4.33	4.33	4.67	4.50	4.17	4.50	6
STAT 454/556 Spatial Statistics	2007 Spring	4.60	4.60	5.00	5.00	5.00	4.80	4.80	5
STAT 454/556 Bayesian Statistics	2007 Fall	4.82	4.73	4.27	4.73	4.64	4.91	4.82	11
STAT 454/556 Stat. Computing	2008 Spring	5.00	5.00	4.50	5.00	4.75	5.00	5.00	4

Questions:

1. The instructor's organization and presentation.
2. The instructor's ability to stimulate your interest.
3. The fairness of exams, assignments.
4. The instructors concern and respect for students.
5. The instructor's availability and helpfulness outside of lecture time.
6. The instructor's overall performance & effectiveness.
7. The course, independent of the effectiveness of the instructor.

b. Evaluations from Fall 2008

		Scores (means) based on a 5-point scale:								
Course	Year	1	2	3	4	5	6	7	8	N
STAT 260	2008 Fall	4.53	3.84	3.50	3.86	3.79	3.47	4.37	4.13	38
STAT 260	2009 Fall	4.47	3.87	3.37	3.97	3.89	3.81	4.38	4.00	38
STAT 260	2011 Spring	4.38	3.60	3.25	3.92	3.98	3.29	3.67	3.74	55
STAT 252	2012 Spring	4.29	3.59	3.88	4.25	4.24	3.53	4.12	4.12	17
STAT 454/556 Bayesian Statistics	2008 Fall	4.43	3.88	4.29	3.88	4.29	3.88	4.63	4.25	8
STAT 454/556 Bayesian Statistics	2013 Spring	4.44	4.44	4.22	4.55	3.78	3.88	4.67	4.56	9
STAT 458/568 Gen. Linear Models	2009 Fall	5.00	5.00	4.50	4.50	4.50	4.50	5.00	5.00	3
STAT 458/568 Gen. Linear Models	2011 Fall	4.56	4.78	4.67	4.56	4.11	4.56	4.78	4.44	9
STAT 454/556 Spatial Statistics	2010 Spring	5.00	5.00	5.00	4.50	5.00	4.50	4.50	5.00	2
STAT 359/563 Data Analysis*	2010 Spring	4.62	4.00	4.31	4.69	4.76	4.38	4.77	4.61	13
STAT 359/563 Data Analysis*	2011 Spring	4.56	4.56	4.68	4.79	4.78	4.57	4.91	4.79	9

*STAT 563 is a course for graduate students outside the Department of Mathematics and Statistics

Statement

1. The instructor was prepared for course sessions
2. The instructor's explanations of concepts were clear
3. The instructor motivated you to learn in this course
4. Instructor was available to answer questions or provide assistance
5. Inst. ensured that assign./tests were returned within reasonable time.
6. Inst. was helpful in providing feedback to improve learning in course
7. The instructor demonstrated respect for students and their ideas
8. Overall, the instructor was effective in this course

Response Scale

1 Very Poor 2 Poor 3 Adequate 4 Good 5 Excellent

EXPERIENCE in CURRICULUM and COURSE DEVELOPMENT, and in INNOVATIVE TEACHING

1. TIME SERIES ANALYSIS 554

This is an introductory course covering the analysis of time series data aimed at beginning graduate students in statistics. Course notes were developed, typeset using LaTeX, and placed on the web for students to access.

Topics covered: *stochastic difference equation models, concepts of stationarity, autocorrelation function, periodogram, ARMA models, Linear processes, autocovariance*

generating functions, stationarity and invertibility, Yule-Walker equations, partial autocorrelation function; ARIMA models, three forms of the model, MMSE forecasts, three forms of forecast, updating, eventual forecast function, ARIMA and exponential smoothing, Identification techniques using acf and pacf, initial estimates, model multiplicity, Likelihood, conditional likelihood and least squares, unconditional likelihood and back forecasting, nonlinear estimation, exact likelihood computation, large sample information matrices, diagnostic checks, seasonal models, Kalman Filtering

Textbook: Statistical Methods for Forecasting; By B. Abraham and J. Ledolter; John Wiley, 1983

2. SPATIAL STATISTICS 556

This is a course covering introductory and advanced topics in spatial statistics aimed at beginning graduate students in statistics. Course notes were developed, typeset using LaTeX, and placed on the web for students to access. At the time of first offering, this was a **new course to the University of Victoria**.

Topics Covered: Overview of spatial data problems, Basics of point referenced data models, Basics of areal data models, Bayesian inference and computing, Hierarchical Modeling for univariate spatial data, Bayesian kriging, disease mapping, Spatial misalignment , Multivariate spatial modeling, Spatio-temporal modeling

Textbook: Hierarchical Modeling and Analysis for Spatial Data; By Sudipto Banerjee, Bradley P. Carlin and Alan E. Gelfand; Chapman and Hall/CRC, 2003

3. BAYESIAN INFERENCE 556

This is an introductory course in Bayesian inference and data analysis. The course is aimed at graduate students in statistics; however, is attended by both students and faculty from other departments. Graduate students in Biology, Economics and Geography have all taken this course. In addition, a faculty member from Biology, and another from Geography have attended the course as well. Course notes were developed, typeset using LaTeX, and placed on the web for students to access. At the time of first offering, this was a **new course to the University of Victoria**.

Topics Covered: *Setting up a probability model; Bayes rule, posterior moments; Univariate models; noninformative prior distributions; Multiparameter models; large samples and*

comparison to non-Bayesian methods; hierarchical models; Bayesian computation; model checking and model selection

Textbook: Bayesian Data Analysis 2nd Edition; By Andrew Gelman, John B. Carlin, Hal S. Stern and Donald B. Rubin; Chapman and Hall/CRC, 2004.

4. STATISTICAL COMPUTING 556

This course provides an introduction to stochastic simulation with a focus on the theory and practice of Markov chain Monte Carlo. The course is aimed at graduate students in statistics and, in addition to these students, has also been attended by a graduate student in applied mathematics. This type of statistical computing course was a **new course to the University of Victoria**.

Topics covered: *Stochastic simulation (basics, rejection sampling, weighted resampling, adaptive rejection sampling); Review of Bayesian inference (prior and posterior distributions and the integration problem); Markov chains (stationary distributions, limiting theorems, reversible chains, continuous state spaces, simulation of a Markov chain, data augmentation); Gibbs sampling (definition and properties, implementation and optimization, convergence diagnostics); Metropolis-Hastings algorithms (definition and properties, special cases, hybrid algorithms, convergence acceleration); Applications*

Textbook: Markov Chain Monte Carlo: Stochastic Simulation for Bayesian Inference. 2nd Edition; By Dani Gamerman and Hedibert F. Lopes; Chapman and Hall/CRC, 2006.

5. GENERALIZED LINEAR MODELS 568

This course introduces students to the theory of generalized linear models. Attention is directed mainly towards regression methods for binary, categorical, and count data, although the generalized linear model is discussed in its full generality for responses arising from the exponential family of distributions. The intended audience consists of beginning graduate and advanced undergraduate students in statistics.

Topics covered: *Review of likelihood inference; Basic methods for the analysis of contingency tables; Binomial regression models; Generalized linear models; Binomial regression models with different link functions; Poisson regression models; Models for cross-classified data; Markov models for longitudinal binary data; Bayesian methods and hierarchical generalized linear models*

Textbook: Dobson AJ: An Introduction to Generalized Linear Models, Third Edition, Chapman and Hall, 2008.

PROFESSIONAL DEVELOPMENT in TEACHING and LEARNING

- **Learning and Teaching Centre, University of Victoria**, 2009: Participated in the workshop entitled "The Art and Craft of Teaching the Large Class".
- **Learning and Teaching Centre, University of Victoria**, 2009: Participated in the workshop entitled "Developing Your Teaching Dossier".
